FRIDAY, APRIL 25, 1913.

WHOSE BUSINESS?

Montreal Gazette: "The spending of \$85,000.00 on defence is a matter of business, and should be so regarded by the voters whose taxes will provide the money."

Exactly. But as the voters are not to be allowed to say how they regard it, what practical difference does it make whether they regard it as business or humbug?

And as the Ministers have decided that it is none of the voters' business, whose business is the voter to regard it as being?

TRYING TO FOOL THE FARMER

Hon. Martin Burrell's spectacular scheme for voting ten millions of dollars—on paper—for the encouragement of agriculture is again before Parliament.

The difference between the Government and the Opposition on this bill is one of method only. The parties are agreed as to the propriety of spending ten millions of dollars on this most worthy object during the next ten years.

But the Government apparently hopes to make some political capital by appearing to vote ten millions in aid of agriculture in a lump, while really asking permission to spend less than one-tenth of the sum during the present year.

The Opposition hold that agriculture would benefit quite as much, and the interests of truth rather more, if the sum it is intended to spend over the next ten years is voted as required—as is done in every other branch of the public service.

The scheme may be taken as indicating on the part of the Ministers a recognition that they must do something to square themselves with the farmers for the rejection of the bill in the consolidation of monopoly. Whether a million dollars per year spent on agricultural schemes or other educational fields will be accepted by the farmers as compensation for the twenty millions as per year they are losing through the defeat of reciprocity remains to be seen.

"TIED-UP" VOTES.

Under the Alberta election law a scrutineer may challenge the right of any person appearing in the polling booth to vote. If he does so, the vote of the person whose right is challenged is not deposited in the ballot-box, but is placed in an envelope with his name and address written upon it. Votes so "tied-up" are not counted by the deputy returning officer at the close of the poll, the returns then given out indicating only the complexion of the unchallenged votes cast.

To deal with the challenged votes courts of enquiry are held, presided over by justices of the peace, when the right of the person concerned to vote is looked into. A person whose vote is challenged is required to be present at the court in person or by agent to establish if necessary his right to the franchise. If he does not attend and is not so represented, his vote is thrown out; if he does attend or is represented, the witness is then upon the challenger to show that he had no right to vote. If this is proven, the vote is thrown out. If not proven, the vote is allowed.

Such of the protested votes as are allowed by the courts of enquiry are turned over to the returning officer, who on a date fixed by law opens the envelopes, counts these votes, and adds them to the returns of the unchallenged votes. The exact result of the election is not, therefore, known until the returning officer has counted these "tied-up" votes.

and added thereto the figures of the unchallenged votes. And it occasionally occurs that two candidates divide the unchallenged votes so evenly between them that the "tied-up" votes may give the election to the one who was supposed to be defeated. Several instances of this occurred in the elections of last week. In Edmonton, for example, Mr. Ewing and Mr. MacKay are separated by over votes than are enclosed in the envelopes, and when those are added the votes counted it may be that Mr. MacKay, who received fewer unchallenged votes than Mr. Ewing, will be found to have received a larger total vote. A similar condition exists in Medicine Hat, and it is understood, in Medicine Hat.

A "tied-up" vote is not necessarily an unqualified vote, nor is it a suspected vote, nor is it a reflection upon a voter that his right to vote is challenged. The intention, of course, is that only the voter whose right is challenged should be challenged.

But in practice it will be a challenge every voter on the list, and every person who swears a vote, if he wants to. And the scrutineers thought good to use this privilege freely as a means of delaying proceedings and so preventing an opponent's supporters polling their votes before the closing hour.

To challenge a vote costs nothing, and entails no responsibility, and is such a cheap and efficient means of obstructing the voting when it is thought the majority of the votes are hostile.

Foolishly, as well as unethically, the local Southern paper has tried to give an impression that a "tied-up" vote is in some way a vote which should not be counted, that the mere fact of its being protested is proof that the man casting it had no right to vote, and that an election decided by votes which had been "tied up" is a "stolen" election. That is contrary alike to fact and to reason.

A scrutineer may, and frequently does, challenge the vote of a man whom he knows or believes to be as well qualified to vote as himself, and the fact that it is unfair enough to do so neither destroys the right of the voter to cast a vote nor puts either him or his vote under any manner of just suspicion.

If in any constituency in the province "tied-up" ballots should give the election to the candidate who received the smaller number of unchallenged votes, the election will be just as fairly and honestly as though the votes had been put into the ballot-boxes and counted by the deputy returning officers on election night.

Remark on the Side

Running "funny" is the name of a flood Indian who was arrested in southern town last week—not merely because he was running funny, but because he was considered to be interested.

A man who was ordered to pay a fine of \$1 and costs or go to prison for fourteen days, did the court officer his mind what to do, but it is thought that he has fourteen days to be made out of free.

The town council of North Battleford has unanimously decided that the town must get a new name. The older and newer towns have been using each other names for quite a long time, but that will perhaps not be much assistance in the choice of a suitable designation.

"What are the passengers looking for?" asked a nervous woman in a car on the train as the conductor came through. "We are only a car, ma'am," said the conductor. "Was the cat on the truck?" she asked. "Oh, no, ma'am," the conductor assured her. "The locomotive chased it off the other side."

This is the time of year (says an exchange) when dogs should be warned that there is a loud bad man around with a very serious voice and a very serious look, looking for dogs that have not their tags on them. After a week in the pound, if a dog is not taken up, the tag is returned. This is apt to be a sudden and sudden death.

As a farmer who tendered a U. S. gold coin as an Alberta town the other day, was surprised to learn that it was a mere current, the daily paper saying that the banks would not receive it. Inquiries elicited the information that on a previous occasion the bank had accepted American gold which was a silver dollar, and the store owner who owned the coin was given by the bank, and now he is not taking any more of the coin.

FLEET NOT SUCCESSFUL IN REACHING THE SOO

Though Downbound Steamers Have Failed to Arrive at This Coast So Far, Upbound Steamers Have Been More Fortunate, and Large Number Have Reached the Open Water.

South Star, Marie, April 23.—Although the ice shifted sufficiently this morning above Whitefish Point, to enable the downbound fleet to move past the Point and out of sight down the bay, they have not been successful in reaching the Soo. Upbound steamers have been more fortunate. A large number have reached the open water of Lake Superior, assisted by the car ferry St. Ignace, which, according to report from Whitefish Point, has been doing good work, working from one steamer to another, she has kept them moving through the ice which is yet very heavy. That the icebergs are heavier in the upper end of the bay seems to be the cause and this is where the loaded grain vessels are thought to be held up. Arrivals at the Soo upbound to day are fairly numerous, but as they are fairly remaining held up here until sure they can get through. As a consequence the river front is lined with steamers.

Wants Government to Help.

Montreal, April 23.—Representatives have been sent from here to Mr. Roche, minister of the Interior, that the Dominion government, as far as possible, should be asked to help in the case of the immigration commission. Mr. Roche, who is in charge of the immigration commission, has been instructed by the government to proceed to Montreal, and along with local immigration officer Woodward, drive south to make an investigation.

Must Take Both Or Neither.

London, April 23.—In regard to the Canadian parliament's demand for separate votes for the purchase of the Toronto Electric Light and Power Company, the Canadian Associated Press today announced that Mr. William McKeen, the only member who would make a vote as far as he knows the street railway board will not consider selling the street railway property by itself, and will not negotiate on any other conditions than the disposal of both properties.

Current Comment

No Danger.

Eng. Leader: Now if only Borden would appeal to the country! But the vote would not be taken.

Gulf.

Eng. Leader: Eighteen cents a barrel for oil paid by the R. B. is a fair price. The oil is not sold to the farmers of Alberta and not voted accordingly.

Why Not An Election?

Eng. Leader: Why should Mr. Borden deny, under existing circumstances, that appeal to the people would be demanded and obtained from the Prime Minister, in 1913?

No Intention.

Hon. Geo. E. Foster said in Parliament, April 23, 1913, that he did not intend to submit himself to the test of any of the well-defined theories of the House as a parliamentary body since infringed upon.

Not the British Navy.

Toronto Globe: What would this say in British if Canada's navy is planned to prevent Balfour from leaving and demanded that he be forced to yield the floor after the speaker had recognized him? The thing is unthinkable.

A Poor Appeal.

Montreal Herald: Discussing the introduction of closure in the Commons, the Toronto News says that the opposition has been "absolutely quiet." The dictionary defines the word "to gulf" as "to deceive, cheat, mislead, trick, defraud." Seems a pretty big price to pay for the "triumph" of the other night, doesn't it?

Interference Resented.

Regina Leader: Following Saskatchewan's declaration of a year ago, the Alberta verdict yesterday was a political evidence of the determination of the people of these western provinces to get a square deal for themselves, and to resist dictation and coercion from the Borden government.

As To Grain Prices.

Editorial: The Edmonton Journal conceives it impossible that any Alberta farmer could be led astray by the talk about the price of wheat. The farmers will certainly not be deceived by the quotations. If they are getting anything like Winnipeg prices for wheat they will be well satisfied to keep. But No. 1 wheat draws only from 25 to 32 cents per bushel at Taber. This makes a difference of 12 1/2 to 12 1/2 cents with the Winnipeg prices quoted by the Journal, allowing 14 cents for freight and 1 cent for commission, the usual percentage allowed by elevators. The price leaves a margin for the elevator of from 23 to 43 1/2 cents per bushel.

The grain dealer is getting the raw deal, if the Bennett elevators were forcing the proper price to the grain producer there would be no need of making the price of wheat and oats an issue in any election.

TORONTO EMPOWERED TO BUY RAILWAY PLANT

At Vote of 22 to 9, Private Bills Committee of Ontario Legislature Considers Necessary Powers, But Eliminates All Reference to the Electrical Company.

Toronto, April 23.—The vote of 22 to 9, the private bills committee of the Ontario legislature, has authorized the city of Toronto to purchase the plant of the Toronto Railway Electric Company, but gave the city power to enter into an agreement to purchase the railway plant.

It was held that the city already had authority to acquire the electric plant, and that the proposal should be considered by the municipality, as provided by the municipal act for appropriate votes.

Mayor Hocken and Controller McCarty urged that the bill be reported without amendment. Hon. Adam Beck made a strong plea for submission of two propositions. Only one of the two propositions, Mr. McCarty, voted in favor of the joint agreement for purchase. The bill passed its third stage before the legislature this afternoon. The Hon. J. L. Macdonald is in charge of the only alteration made in the bill after it left the hands of the special committee this morning, and the form of an amendment made by Mr. Lucas to the effect that if the two companies were purchased by the city and a Public Utilities Commission was appointed, no amendment of the city council could serve at the same time on that commission. As an amendment was raised to this new clause the bill was considered in committee of the House, given a third reading and finally passed upon.

BRITISH IMMIGRANTS PREDOMINATE 3 TO 1

Weekly Returns of Nationalities Show the Islanders Who Have Come to Canada in Last Seven Days. Over 1000, While Russians Are Next With 500.

Winnipeg, April 23.—Weekly returns of nationalities of immigrants issued by J. Bruce Walker, Commissioner of Immigration, indicate that British born will predominate to the extent of about three to one over all other nationalities.

British 1,299; Russians 500; Scandinavians 246; Germans 20; total 2,045.

Five hundred foreigners arrived at the Union depot in 1908, and since that time the number has increased. They are being distributed throughout the west.

Carbide Factory Burned.

St. Catharines, April 23.—Fire this morning consumed Fifteen damage to the Carbide factory at Merrickville. The Carbide factory at Merrickville was shut down for several weeks.

Japanese Premier's Opinion.

Tokyo, April 23.—The relations between Japan and the United States were discussed by the premier, Count Gomi, in a speech. He said they must remain peaceful. He said the recent disturbances in Mexico were entirely disapproved of by Japan. He said that Japan was not in any way interested in California's proposed anti-land ownership legislation.

Striker Shot and Killed.

Hopdale, April 23.—The first fatality in connection with the strike at the plant of the Ingersoll company, textile manufacturers, occurred today when an unidentified striker was shot and killed in a clash between police and pickets on the outskirts of the town. The firing was general on both sides for a few minutes, but no other person was struck.

Optimists Bailed in Montreal.

Montreal, April 23.—Two optimists in Chinatown were raided early this morning by Lieut. Savard and his men. The first case was made of H. Urban street, where the proprietor, W. Wong Kei, and four other Chinese were arrested, while in three rooms on the top floor of 39 LaSalle street, where optimists were making a bet, two were arrested.

Supper at the Bomb.

Manchester, Eng., April 24.—An immense window of the Free Trade Hall was blown out early today by a bomb which exploded beneath the platform. The police believe that the bomb exploded prematurely and was intended to destroy a banquet given in honor of John Burns, president of the board of trade, who is to speak in the Free Trade Hall tonight.

STRONG DETACHMENT OF R.N.W.M.P. START FROM TOFELFORD ON MAN HUNT

Maniac, After Attempting to Fire House Takes to Woods, Presumably Well-Armed—Detective Bailey's Body Recovered—Detachment of Nine Men Leaves Tofelford for Scene of Tragedy and is Now Scouring the Woods for Fugitive.

By a Staff Reporter.

Tofelford, Alta., April 24.—Somewhere out on the prairie and through the woods north of here, a man is being hunted for his life.

Eight constables and officers of the Royal North West Mounted Police with ten special constables sworn in last night, are today pursuing the murderer of their comrade, Detective Maxwell Bailey. In a desperate battle yesterday afternoon between Oscar Ronberg, a homebreaker, and Constable Bailey, in the Strawn Lake region, twenty miles north of here, Bailey was shot and instantly killed. Constable Bailey was seriously, and Constable Tofelford was slightly wounded.

Today Bailey's body lies in Tofelford. Whitley is in the Royal Alexandra hospital at Edmonton, and Tofelford, with his arm in bandages, is out with the avenging detachment.

The full details of yesterday's fatal fight cannot be learned yet; not sufficient has been told by Whitley and Tofelford, and homebreakers who saw the battle to show that what took place was one of the most sensational and tragic events in recent annals of the Royal North West Mounted Police. When an attempt was made on the life of a neighbor Sunday last, warrants were sworn out here before Justice of the Peace Williams, for the arrest of Oscar and Swan Ronberg, brothers, for examination as to their ability. Constable Tofelford, stationed at Tofelford, went out to the homebreakers near Strawn Lake, he was met with such a storm of shot that he retired without further party. He returned to Tofelford, communicated with headquarters at Edmonton, and that evening Detective Bailey and Constables Whitley and Staid were sent out to assist in the arrest.

Full of zest for what promised to afford some unusual excitement, the four Mounted Police drove out to the Ronberg homebreakers, of the four men, two were in the hospital, and a third bore the marks of the sudden and desperate resistance of the outlaw. When Bailey approached the shack he was warned off.

"I'll shoot you if you come closer," called the man at the door, a big, knobby-knuckled looking fellow. The detective halted, and then the red coat boy decided to smoke out Ronberg. The dog-out was half buried in the hillside. The constable crept down the hill, and the attempt to fire the shack failed and when the four men drew off to consult, they stood behind a wood pile.

Suddenly Whitley cried: "My God! Bailey is dead." The detective had pitched forward, without a cry. A bullet once in the forehead had killed him. Whitley rushed through the officer's brain. He was killed instantly. Whitley rushed over to his comrade. As he stopped, he too plunged over, with a bullet through his brain.

Tofelford and Staid then, dragged Whitley out of range of the murderous rifle fire. Then Tofelford returned to bring Bailey's body away. He tried twice, but the hail of shot because so furious he was forced to retire. It was suicide to go near the outlaw's stronghold, but true to the traditions of these "Riders of the Plains" Tofelford wanted to make another attempt. He finally might only have succeeded, but then a bullet struck him in the hand, and his companion Staid drew him away.

Whitley suffering, was driven by a neighbor to a nearby homebreaker. Last night he was sent to headquarters. Tofelford and Staid remained outside the shack, but they were helpless. Ronberg had high power rifles and automatic pistols. The constables had only their short range rifles, and added to this was the fact, tragically proved, that the outlaw was a track shot.

Early last evening a neighboring homebreaker saw Ronberg leave his shack. The two brothers, it appears, have terrorized the neighborhood, and no one tried to stop them. Before he left the shack, Ronberg climbed on the roof of the nearby stable. He stood there in plain view, rifle in hand, and taunted his would-be captors. Had the constables had their rifles with them at that moment the chase would have ended then and there.

Just before 1 o'clock this afternoon Corporal Barker and Constable Garfield left Tofelford for Strawn Lake. They carried in the rig with them provisions for ten men for three days. Corporal Barker left his 30-30 Savage with him, with one hundred rounds of ball cartridges. They were followed by two Winchester being used in this man hunt are old, 30-30 and 30-40. Some of them. Ronberg has a modern repeating rifle and automatic pistols. Will the inequality in arms mean the death of more members of the Mounted force?

How long will the chase last? A day, a week? No one knows. Ronberg is an old hunter and trapper. He may be able to live in the woods indefinitely. The police have orders to bring in the man, dead or alive. The men are resolved to avenge the death of their comrade, they either will place Ronberg behind prison bars or await trial for murder, or Ronberg will be dead before they can do this.

Inspector Haven, of Edmonton, with Corporal Butler and Constable Garfield, arrived at Tofelford this morning. Inspector Haven intended having an interview with Detective Bailey, immediately but neither Tofelford nor Staid was in town and the request had to be postponed. Nine special constables were sent out from Tofelford as soon as the news could be proved for them and they are now assisting the police in scouring the neighborhood. They are as follows: H. W. Logan, W. C. Brown, C. C. Hammond, J. F. St. Peter, James Martin, John Lee, A. Brown, C. Howard, Frank Skerfield.

Dr. Hammond, after visiting the scene of the tragedy and seeing Bailey's body, reported that the detective had been instantly killed. The death-dealing bullet entered Bailey's mouth and ploughed his way upward through his brain and out at the back of his head. The shot had apparently been fired from the floor of the fugitive, which was about twenty yards away from the wood pile, near which Constable Tofelford was standing, with the other constables.

Whitley was not injured in trying to remove Tofelford's body, as at first reported. The constables were standing in a group when Bailey suddenly fell forward. Whitley cried out, "My God, Bailey's shot." Shots were being fired all the time, but the officers did not think that they were in immediate danger. When Bailey fell, Whitley stooped down to examine Bailey's apparently lifeless form and in doing so received a shot in the hip. He fell, but was picked up by Staid and Tofelford and taken away from the dangerous spot. In his hands were two pistols. Whitley has been removed to the Royal Alexandra hospital at Edmonton.

The Ronbergs are known to have had rifles and automatic pistols, while the Mounted Police had only their revolvers.

Shooting of Bailey and Whitley Was Done By One Man Alone

Latest information from the scene of the shooting at Strawn Lake is to the effect that the shooting which caused the death of Detective Bailey and which wounded Constable Whitley was all done by one man. This is surprising in view of the perfect isolation of shots which came from the shack on the southeast. The man who was in the shack and who therefore shot Bailey, was Oscar Ronberg, his brother, Swan Ronberg, being in Edmonton at the time.

Oscar Ronberg, heavily armed, is now at large in the vicinity of the shooting and it is feared that further tragedies may result before he is captured. Inspector Sweetapple, a corporal and four constables of the Mounted Police, and a squad of special constables, all armed, are searching for the outlaw. Ronberg got out of the shack last night under cover of darkness. While he is believed to be in the neighborhood, it is known that his only hope of liberty was to make his escape as soon as possible from the neighborhood of his crime.

At two o'clock this afternoon a staff representative of the Bulletin telephoning from Tofelford stated that the police are on the trail of the man Oscar Ronberg, and although Ronberg is a hunter and knows every inch of the country, they are in hopes that they will overtake him in the course of the next few hours.

The starting information was given to the Bulletin representative by Inspector Egan, that Ronberg may try to elude his pursuers by wearing the coat and hat of Constable Whitley, who was ordered to leave them behind him after he was shot. Inspector Egan has issued a passport to his subordinates to prevent them being imposed upon by Ronberg in the guise of a mounted policeman, and anyone masquerading in policeman's uniform is unable to give the pass-word will be shot.

The trail of Ronberg was discovered by two special constables, J. St. Peter and W. C. Boldman, of Tofelford, who are commercial travellers.

Two Edmonton Travellers Take Part in the Hunt for Ronberg

Acting as Special Constables J. St. Peter and W. C. Boldman
Return to Tofelford Having Discovered the Track of the
Fugitive Murderer.

By a Staff Reporter.

Tofelford, Alta., April 24.—Claiming that they had discovered the track made by Oscar Ronberg in his flight through the bush last night, Special Constables J. St. Peter and W. C. Boldman arrived in Tofelford at one o'clock this afternoon. According to the trail evidence, the fugitive Ronberg has headed southeast from Strawn Lake. Before leaving the scene of the crime for Tofelford, St. Peter and Boldman met Inspector Sweetapple and made the flying trip from Strawn Lake to Strawn Lake.

St. Peter and Boldman are commercial travellers, who were doing business in Tofelford when the news of the tragic occurrence was received, and they immediately volunteered their services to Mr. Williams. There is some difference of opinion as to whether both the Ronbergs were in the shack at the time of the murder. One of the eye witnesses has positively stated that he saw two men and others are equally firm in their belief that there was only one.

Detective Bailey's body lies behind the hardware store with a bullet-hole ploughed through his brain. A jury will be empanelled to view the body this afternoon. The body will be taken to Edmonton this evening. The tragedy has been adjudged as definitely settled.

W. C. Boldman and J. St. Peter

Swan Ronberg in City Brickyard

Swan Ronberg, brother of the murderer, is employed in Edmonton at Anderson's brickyard. Precations have been taken by the police to keep Swan Ronberg ignorant of the events that have happened at Strawn Lake.

Both the brothers are said to be of half mixed blood, and it is thought that if Swan Ronberg he would attempt to join him. It is thought by the police that if Oscar Ronberg succeeds in getting away from the Strawn Lake district he will come to Edmonton to see his brother Swan. In that event the police will be immediately apprised and they will arrest him. The police request that no one will attempt to get in communication with Swan Ronberg, who is being closely watched in order that no news of the crime may slip him.

Knows Nothing of Loan.
Toronto, April 24.—Sir Donald Mann, of the Canadian Northern railway, in an interview denied any knowledge of the granting of a seven-million dollar loan to the Canadian Northern railway.

DIAMONDS OFFER TO HELP POLICE
Lieut. Col. Jamieson has communicated with Major C. J. C. Smith, of the Mounted Police and volunteered the services of his squadron of Dragoons, or any number of them, if required to assist the police in the search for the fugitive.

The Ronbergs are known to have had rifles and automatic pistols, while the Mounted Police had only their revolvers.

DETECTIVE BAILEY and the other members of the Edmonton Detachment R.N.W.M.P. The dead officer is marked in the picture with a Circle.

DEATH OF MRS. CUSHING.

Calgary, April 24.—Mrs. W. H. Cushing, and W. J. Cushing, of Calgary, have left for Ontario today, and A. B. Cushing, Calgary, will remain to-morrow afternoon.

be at Kenilworth, Ont., on Tuesday, April 23, 1913. He will leave for Ontario today, and A. B. Cushing, Calgary, will remain to-morrow afternoon.

Jeans in Favor Proved.
Chicago, Ill., April 24, 1913. Prominent believers of this city have signed a call for a meeting of their associates at the Hotel La Salle to-morrow evening, to enter a firm protest to the Jew being caricatured and misrepresented on the stage.

by the theatrical performance. Two years ago the central conference of American tribes sent letters to all the leading producers and theatrical managers pleading for a "truthful representation of the Hebrew character or none at all. All of the managers replied that they were against ridiculing the Jewish race. One manager, however, is now exhibiting a show in which the Jewish character is so grossly misrepresented that several newspaper critics have been led to criticize it severely.

Grave International Crisis Caused by Fall of Scutari

Austria-Hungary Issues Ultimatum Demanding Immediate Action by European Powers to Force Montenegro to Evacuate Albanian City—Germany Regards Situation as Serious.

London, April 24.—Take immediate combined action to turn the Montenegro out of Scutari or we shall be at arms," declared a circular note sent by the Austro-Hungarian government to the powers today. The note, it is said, is virtually an ultimatum. Austria-Hungary declares she cannot permit the Montenegro to flout the decision of the great powers. The prestige of the European nations has been violated, says the note, and Austria-Hungary demands that the powers decide promptly on the steps to be taken to restore that prestige, adding that if the powers should be unable to reach a speedy decision she will see to it herself that the will of Europe is executed and that the Montenegro evacuate Scutari.

Situation Regarded as Critical.
Berlin, April 24.—There are many indications here today that the German government regards the situation in the Balkans as critical. A high diplomatic official said today:

"Europe has entered into a new phase as grave as that which preceded the Austro-Hungarian ultimatum."

The news bureau of the German foreign office, contrary to its usual custom, was not prepared today with a statement either in regard to the ultimatum to Montenegro or to the general situation. It is official, however, believed it probable forces would have to be employed to expel the Montenegro from Scutari.

The official view here is that all the European powers will work to prevent until the problem has been solved.

A feeling of consternation and helplessness was expressed at yesterday's conference of the ambassadors in London. According to authorities received here the representatives of all nations, including Russia, agreed that the decision of the powers concerning Scutari must be enforced, but are non-committal as to how Montenegro was to be coerced.

The Imperial chancellor and the foreign minister visited the budget committee of the Imperial parliament today in order to make a confidential communication to its members in regard to the international situation.

Russian Canoe Trip.
The cancellation by Emperor William of his proposed trip on the steamship Imperator and his determination to return to Berlin from Hamburg on April 28th are attributed in well informed quarters to the crisis brought about by the fall of Scutari.

The stock market was demoralized today by the news of grave political complications. The price of gold recovered on the strength of Premier Asquith's speech and on the London Times editorial insisting upon an Albanian Scutari. But the market again broke later on and there was heavy selling on the report received from Vienna stating that Austria had demanded that the powers act on ultimatum to Montenegro.

Paris, April 24.—An interview published in the Matin, the Mont-

KING NICHOLAS DEPARTS

FOR EUROPEAN POWERS

Cetinje, April 24.—(Special) is from today Montenegro is the defiant reply of King Nicholas to the European invitation to surrender the harbor of Scutari.

The king made this statement in the course of a speech delivered from the balcony of the royal palace. Among his audience were the ministers of the royal palace, who came to congratulate him. He added:

"Should Europe still think of maintaining Scutari from Montenegro, which has given her life blood to take it. Europe will have to carry out the task by force of arms."

which he considered the mouthpiece of the foreign office, says that the international situation brought about by the capture of Scutari by the Montenegro is grave and exceptionally difficult. It adds that a collision between the conflicting interests can be avoided only by the maintenance of the unity of Europe, which must be secured by force and precise action; and hesitation might compromise European peace.

"Let the public opinion of Europe judge between the attitude of our poor little country and that of the six great European powers."

Must Maintain Unity of Forces.

Rome, April 24.—The Trium-

Military Funeral Will Be Accorded Detective Bailey

Victim of Grassy Lake Maniacs Will Be Buried at Fort Saskatchewan With Full Military Honors—Other R. N. W. M. P. Tragedies Recalled By Wednesday's Murder.

Maxwell George Bailey, the murdered detective of the Royal Northwest Mounted Police, Edmonton division, who had been for over five years in Canada and had served with the R. N. W. M. P. detachment at Fort Saskatchewan, was buried today in London, England, and his father, T. Bailey, still lives in Jernyn street, Piccadilly, in that city. He was unmarried and had no relatives in Canada so far as is known. He belonged to the Church of England.

Detective Bailey was a capable officer and is a great loss to the Mounted Police, declared Commissioner Culbert this morning. "The funeral will be of military character, in all probability and will take place at Fort Saskatchewan, where the Mounted Police have a burial lot. The last military funeral in this vicinity for the Mounted Police was that of Inspector Strickland, who died, however, a natural death. This was in the spring of the year 1902."

The wounded constable, C. R. Whittier, has been in the Mounted Police force for the last two months and is an ex-serviceman from the old country. The father, Daniel Whittier, lives at Fernbank house, Midland road, Leicester, England. Constable Whittier came out to Canada a year ago.

Personal as is the tragedy. He is, it is by no means without precedent in the history of the Mounted Police force, and it was recalled by one

Bryan Leaves for California.

Washington, D.C., April 24.—After an hour's conference at the White House last night, President William directed Secretary of State Bryan to proceed at once to Sacramento to cooperate with Governor Johnson and the members of the California Legislature in framing a law regarding the ownership of land by alien land.

MINISTERS APPOINTED TO LOSE THEIR HEADS HE SAYS

Rev. Dr. Ferguson at Alberta Convention of the United Brethren.

SAYS AIM OF CHURCH IS NOT TO GET CROWD

Reports of Colleges Are Presented and Are Considered Very Gratifying.

"Ministers are apt to lose their heads and utter things contrary to the aims of the church," said Rev. Dr. Ferguson in the course of his address at the convention of the United Brethren in Alberta. The church is mistaken in the aim of getting a crowd, and there is danger of too much emphasis on the giving of an aesthetic impression, but praise for a few years past is gratifying to us. But we must strive with all our might to save our grip of God, because so many people depend on us.

Such was the message of Rev. Dr. Ferguson in the devotional opening of this morning's session of the Presbyterian Synod of Alberta. The chief subject of the morning was the reports of the churches and the reception of offerings from the presbytery. The one from Vermilion presbytery, adding a change in the Robertson Memorial Fund, to make it more in keeping with the genius of the great pioneer.

Rev. W. G. Brown, of Red Deer, Rev. J. H. Russell, of Wainwright, and Rev. Dr. McQueen, moderator of the synod, all spoke strongly in favor of a change in the Robertson Memorial Fund, so that the fund should be devoted to the building of churches and houses for the poor, and to the support of those who are unworthy of the spirit of the great pioneer.

Reports on Colleges.
The report of Robertson College was read by Rev. H. Atkinson. It is the aim of the college to have every student matriculate and take a university course. Scholarships to the value of \$400 are given to encourage the students. A corresponding amount is given to the students.

An estimate of \$12,000 is asked from the budget. The development of the college has necessitated the increase of temporary residence. It has been decided to co-operate with Alberta Methodist Theological College by a combination of classes, so as to avoid duplication of professors on campus.

Professors to Robertson College have been left over for a year, and it is hoped that they will be able to find employment for one year before being sent home. The college has been connected with the college during the past year.

Dr. King, of the staff of Robertson College, spoke briefly on the work of the college in the district of Prof. J. M. Miller, who had been called away earlier to the sick bed. He was a member of the college during the past year.

Rev. N. D. Keith, Principal of the United Free Ladies' college, spoke in part of that institution. The college has now 22 students taking work in the work of the Public school, Bible school and in music and art. The college is now in a position to receive 100-500. Accommodation for 50 students is afforded, stress is laid on instruction in domestic science.

It is the aim that the graduates be trained to be good citizens. The college is in a position in which they later may find their place.

The college is growing in popularity, and students are coming from all parts of the province. It is aimed to keep the fees low.

The subscription list now totals \$100,000, which is a very large sum for a college of this kind.

The Women's conference is devoted to foreign missions.

ENGLISH FINANCIERS TURNED BACKS ON US

They Have Decried Canadian Investment in the United States—There is Big Surplus of Money.

Winnipeg, April 24.—R. T. Riley, vice-president of the Union Bank of Canada, returned to Winnipeg from Europe this week, where he spent three months. He was in London when the Manitoba loan was brought out. This was done through the Union Bank. The popular subscription exceeded the requirements of the loan by 14,000 pounds.

"There is lots of money in the old country," said Mr. Riley, "and there is a lot of surplus in the United States. However, an idea prevalent that the present investment in the United States should receive a check. A number of financial men in London of high standing are inclined to look unfavorably upon the purchase of Canadian securities for this or that reason. There is no question, however, that the market will come around. As I said in a directors' meeting in London, you cannot give out half a continent. Agriculture operations have been carried on in the interior provinces for thirty or forty years, and money for these operations is needed and will be supplied."

London, April 23.—The appellate committee of the House of Lords has today given the law lords for the judicial committee of the Privy Council to read a third time in the House of Lords today and passed.

Rebuilding Sale

\$40,000 Stock of Men's Furnishings

Go on sale at ridiculously low figures so that the workmen may get busy immediately. That I have been able to buy the premises I have occupied for a few years past is positive proof that my business methods have met with general approval. Gratifying as that is, it is but a stimulant to further effort. The hundreds of esteemed patrons who have made this possible can always rely upon receiving every courtesy and consideration, still there are as many more whom I have not had the pleasure of serving. I want their custom, I want them to realize that they always find the latest in men's wear at closest prices in my store. This sale affords you an exceptional opportunity of testing our services. Come in and let us get acquainted. It will be to our mutual advantage.

SPORT

**HUDSON BAY
SOCCER TEAM'S
GOOD START**

The Hudson Bay football team played its first game of the season last night, on the city grounds, at the foot of Third street, and made a surprisingly good showing, defeating the V.M.C.A. 4 to 1. The Bay boys have acquired the habit of snuffing championships in every line of sport, and their initial effort in soccer circles last night was most impressive.

Today and will work there for the May Day bout with Arthur Pelkey. Morris begins his real work tomorrow and Tommy Burns will spar with him. Tommy realizes the difficulty of carrying a horse of getting good men to work with them and will alternate between the two camps, helping both Pelkey and Morris and keeping himself in condition to meet the winner of the McCarty bout on Victoria Day. In case Pelkey is not returned victor, it falls to Tommy Burns who has continued to carry the honors come to Calgary.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

CLASS—that's a good word to describe one of the notable characteristics of 20th Century Brand clothes. Class means style, plus fit and drape—all due to clever designing and expert tailoring. Spring styles now ready. We are exclusive agents.

Stanley & Jackson, Windsor Block
